UNITED STATES INTELLIGENCE BOARD

MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT : General Guidance to Improve the Countermeasures
Posture of the Intelligence Community

The United States Intelligence Board as of 15 August 1967 approved the following measures recommended by the Technical Surveillance Countermeasures Committee as general guidance for use by member agencies to improve the countermeasures posture of the Intelligence Community:

25X1

(c) Continued emphasis be given to security indoctrination and briefing programs to insure that all employees are aware of the technical threat and how to combat it. Employees should be made aware of the emphasis placed by hostile services on penetrating our facilities both here and abroad and the possibility that attempts may be made to recruit them for this purpose.

GROUP 1
Excluded from automatic
downgrading and
declassification

(e) The temporary use be discouraged of commercial, academic or non-profit facilities not normally under government control for conferences at which extremely sensitive operational, scientific, or technical developments will be discussed in depth.

25X1

(h) Adequate provision should be made to provide appropriate protection to US installations abroad with US guards and wherever possible with US service and maintenance personnel.

(i) Close collaboration should continue to be maintained among members of the Intelligence Community to insure a coordinated effort to combat the technical penetration threat. Such efforts should include: Continued close cooperation on research
